PORTLAND CEMENT of superior colour and hydraulic property on STAFFORDSHIRE VITRIFIED BRICKS GLAZED TILES AND FIRE GOODS.

FREEMAN and RICHARDSON, 4, South Wharf, Paddington.

PORTLAND CEMENT, solely MANUFACTURED by WILLIAM ASPDIN, from the Patentee.—Messrs. ROBINS, ASPDIN, and Co. request reference to No. 9,849, page 449; and also Nos. 9,944 and 9,965, pages 949 and 950, of "The Builder," for accounts of EXPERIMENTS on the strength of Portland Cements, whereby the great superiority of their Cement is manifest. This Cement has been proved for upwards of twenty years in the Thames Tunnel to resist the action of water, it is stronger in its cementitious qualities, harder, and more durable than any other description of Cement; it does not vegetate, crystalize, or turn green; it is not affected by any atmospheric influence whatever the climate, resisting alike the action of frost and heat. It is manufactured to set in from two to three minutes. For all purposes that Cement is applicable the Proprietor will challenge competition.—Orders received by Messrs. ROBINS, ASPDIN, and Company, at their Manufactory, Northfleet, Kent, and their Wharf, Great Scotland-yard, Whitehall; also at their Depôt, 81, Hanover-street, Liverpool.

PORTLAND CEMENT, as manufactured by J. B. WHITE and SONS, possesses all the properties of the best Roman Cement, but has the advantage over that material of being much slower in setting. When used as a stucco it does not evesce or turn green in damp situations, and retains its colour fast. Employed as an hydraulic mortar for brickwork, it carries four to five measures of sand to one of cement, and is proved by trial to become harder and stronger in these proportions than Roman Cement with half-one measure of sand. This superior cementing power, combined with its eminently hydraulic properties, point it out as the fittest material for building sea and embankment walls, the lining of reservoirs, cisterns, and baths, and for all those purposes where strength and a perfect resistance to water are required.

Manufactories.—J. B. WHITE and SONS, Millbank-street, Westminster, and Lion-wharf, Southwark-street, Liverpool.

ATKINSON'S CEMENT.—This Cement has hitherto been manufactured in Yorkshire, and, the much less attention it has therefore proved stale and unfit for use on its arrival in London. By the arrangement now made, the Cement will be manufactured in London and thus presented to consumers in a fresh and genuine state, by the sole Agents, J. B. WHITE and SONS, Millbank-street, Westminster.

KEENE'S and PARIAN CEMENTS.—Internal stucco, are employed very advantageously in place of wood for skirtings, architraves, and panel mouldings and for inside Shutting, instead of stone. The peculiar properties of PARIAN Cement allow of its being painted or papered upon within a few hours of its application, and thus results in an important saving of time and expense. Those qualities which the politician and beauty of finish are essential.—J. B. WHITE and SONS, Millbank-street, Westminster. Patentees of KEENE'S Cement. Importers of PARIAN Cement.

MARTIN'S PATENT
FIRE-PROOF AND ORNAMENTAL CEMENT,
applicable for
ALL INTERNAL PURPOSES WHERE PLASTERING IS REQUIRED.

This new stucco Cement has now been before the public so many years, as to be held in high estimation by the profession; all who have used it, that it is unnecessary to comment on its merits. Messrs. STEVENS and SON, however, feel called upon to observe, that, from the greater extent of surface which a given quantity of MARTIN'S will cover, as compared with other Cements now in use, there will be found a gain of 141 per cent. in material this 7 per cent. less in price, with an additional saving in labour of 11 per cent., by its having about forty minutes for working, being less than one-quarter of the time of other cements of a similar nature, thereby worked with greater facility, making together the enormous saving of full THIRTY-THREE PER CENT.; to advantages therefore cannot admit of doubt. Specimens, showing its beauty, hardness, and applicability to all plain and ornamental purposes may be seen; and the Cement, in any quantity, obtained of Messrs. STEVENS and SON, at their Plaster and Cement Works, 1st, Brunswick, London.—Manufactory, Derwent Mill, Derby.

N.B. This Cement will receive paint or paper in a few hours after the completion of the work by the plasterers.

JOHNS and Co.'s PATENT PERMANENT STUCCO WASH, CEMENT, and PAINT.—The attention of the trade and the public generally is directed to these very excellent and cheap stucco materials, which, for their beauty, durability, imperviousness, and cheapness are unequalled. THE PERMANENT WASH, as a substitute for common lime-wash or water-colour is an article which has long been wanting for stucco and brick work, it is of a stone colour, but may be tinted to any other; is perfectly dry in twenty-four hours; will not wash off; is very little dearer than the common washes, and, being a non-absorbent, is admirably adapted for railway stations, union workhouses, schools, barracks, prisons, &c. One coat is sufficient to cover, with two it resists the strongest rain. THE CEMENT, from the great reduction in price and its establishment for internal as well as external surfaces, places it above all other materials of the kind. It has no caustic qualities, may be painted or papered in a few days; never blisters, cracks, or repulses; soon becomes as hard as stone; and may be cleaned with a brush and water. The merits of the PAINT are well known for its application to stucco work of all kinds and external work generally. Numerous testimonials, prospectuses, and every information may be obtained, on application to the Sole Agent, PHILIP HARE, at the Warehouse, 13, Steel-yard, Upper Thames-street. A liberal allowance to wholesale dealers.

PARKER'S CEMENT, TARRAS, CASTING CEMENT, MASTIC, and PLASTER OF PARIS, manufactured by J. M. BLAKEFIELD, Mill-wall, Poplar, and sold at his wharves, Paddington Basin, and Commercial-road, Lambeth.—Also CEMENT and TERRA COTTA CHIMNEY POTS and SHAFTS, Balusters, Traps, &c., Glazed Stone and Red Ware Drain-pipes and Closet pans; Bricks, Lime, and Hair; Roofing and Paving Tiles, &c. &c.—Offices, No. 3, New London-street, Mark-lane, City.

THE PARIAN CEMENT, for INTERNAL STUCCO.

No. 4 Porchester-terrace North, Paddington.

19th February, 1850.

Dear Sirs,—I have been reluctant to speak to the merits of Parian Cement, until sufficient experience enabled me to do so. As an extensive builder I have given it many trials, and now beg to express my perfect satisfaction with it. The house from whence I date was first inhabited by me on 7th September last, and a brick having been laid before the 1st of June,—that is to say, in three months and one week! I smeared the walls throughout with Parian; papered rooms, painted and marbled others; and the whole work has been dry and perfect from that hour. I need say no more.—I am, Gentlemen, yours respectfully,

WM. SCANTLEBURY.

Messrs. Chas. Francis and Sons, Nine Elms.

BELL'S PATENT LIQUID CEMENT.—Ready for use, on the front of houses, only one-eighth the cost of oil paint; for beauty it is pre-eminent, giving the appearance of fine cut stone. In casts of 1, 2, and 3 cwt., at 8s., 15s., and 21s. each.

PATENT MINERAL PAINT, invaluable for cheapness, beauty, and permanence. Ready for use. Will stand any climate, and well calculated for exportation.

NEW ELASTIC PAINT for DAMP WALLS; an effectual remedy, made or cost. Will dry in a few hours, and may be papered over at once, if desired.—G. BELL and Co., Steam Mills, 6, Wellington-street, Goswell-street.

SMOKY CHIMNEYS EFFECTUALLY CURED.—WILSON and COX'S PATENT CHIMNEY POTS for the Cure of Smoky Chimneys have been extensively tested throughout the kingdom for the last five years, and have proved an effectual remedy in many cases where other inventions have failed. They are manufactured of artificial stone cement or stone, and may be had at the manufactory, 1, Vale-place, Hammersmith, Middlesex. Prices and prospectuses forwarded by return of post.

N.B.—J. W. and Co. will contract for the Cure of Smoky Chimneys on the terms of "No Cure no Pay."
